4 Star rating in 2005 John Platter guide

in the vineyard : Canopy management, soil moisture control and selection are the name of the game at Lynx Wines.

- Lynx Wines introduced the flexible Deltex foliage wire to South Africa, resulting in the perfect VSP (vertical shoot position) canopy.

- Daily moisture readings are computer logged. This is supplemented by pre dawn pressure bomb readings at critical periods.

- The farm produces 90 Tonnes, of which Lynx Wines carefully selects 15% for own vinification.
