ageing : The wine should be drunk young but may be kept for 3 to 5 years.

in the vineyard : 100% Sauvignon Blanc fruit with the majority sourced from bush vines.

about the harvest: The grapes were harvested in the early morning to ensure coolness, crushed and lightly pressed.

in the cellar : The must was cold settled for two days before being inoculated with cultured yeast. The wine was cold fermented and reductive winemaking techniques were used to ensure minimal contact with oxygen, thus preserving fruit character. It was then blended and fined before bottling.
