ageing : Bottle maturation potential at least 10 years and longer.

in the vineyard : A cool summer that had a long growth to effect. Stress conditions until mid February. Good rainfall during winter established an adequate underground water table. A two week period of high temperatures in February causes rapid ripening towards the end of the season. A good season for red wine with very intense berry and fruit flavours.

Soil: Hutton, kroonstad

Trellising: Pinotage bush vines; Cabernet + Merlot 5 wire hedge

Age: Average 20 Years

Yield: ±5.0 Ton/ha
