**ageing :** Although accessible when young, this Shiraz has a good maturation potential of seven to ten years.

**in the vineyard :** Fruit for this wine, situated on south to south-westerly facing slopes and at altitudes of 60 m to 80 m, were sourced from vineyards in the Paarl, Durbanville, Philadelphia and Stellenbosch regions.

**about the harvest:** The grapes were harvested by hand and machine at 24Â° Balling during February and March.

**in the cellar :** They were crushed and then cool-fermented in temperature-controlled stainless steel tanks for two weeks at between 25Â° and 28Â°C. After malolactic fermentation the wine was matured in new, second and third-fill wood for a period 12 to 18 months.
