

## Pearly Bay Cape Rose (tank sample)

---

A refreshing dry wine with scents of summer blossoms, clean hay and mown grass. In the mouth the fruit salad flavours are friendly with a crisp, lemony tang to finish.

A summer wine to be enjoyed on its own or with picnic fare - bread, cheese and salad.

**variety :** | Blend

**winery :**

**winemaker :**

**wine of origin :**

**analysis :**

**type :** Rose

**pack :** Bottle

---

**ageing :** Enjoy in its prime.

**in the vineyard :** Climate: Moderate dry summers with cold rainy winters and an average rainfall of 600mm per year.

Soil: Well drained fertile soils.

**about the harvest:** Grapes are harvested at 20 - 22° Balling.

**in the cellar :** The grapes are then destalked and crushed and the next morning the clean juice is inoculated with a pure yeast strain. It is then allowed to ferment dry. After blending, the wine is stabilised, filtered and bottled.
