

## Alto Rouge 2006

Colour: Deep red.

Bouquet: Aromas of blackcurrant and plums with cigar box and dark chocolate followed by vanilla and oak spices.

Taste: Full-bodied with tobacco, chocolate, toast and vanilla flavours combine with a good tannic structure, adding complexity and long maturation potential.

The winemaker recommends serving it with simply flavoured red meats, game and duck or enjoying on its own.

**variety** : Merlot | 45% Merlot, 25% Cabernet Sauvignon, 15% Cabernet Franc, 15% Shiraz

**winery** : Alto Estate

**winemaker** : Schalk van der Westhuizen

**wine of origin** : Coastal

**analysis** : alc : 14.84 % vol rs : 2.6 g/l pH : 3.42 ta : 6.24 g/l

**type** : Red **style** : Dry **body** : Medium **wooded**

**pack** : Bottle **closure** : Cork

### in the vineyard : Background

Alto, situated on the slopes of the Helderberg Mountain in the Stellenbosch district, dates back to 1693 when it was part of a much larger farm called Groenriver (Green River), granted to a free burgher by Governor Simon van der Stel. In 1919 the owner of the farm, Hennie Malan, sold off half the land to his brother-in-law and set about planting vines on his remaining portion, focusing exclusively on red varieties. He named the smaller farm "Alto", a reference to its altitude (some slopes rise as high as 500 metres above sea-level) and his striving for excellence.

Today Alto has 93 hectares under vines. The trellised vineyards cling to the high granite slopes that are ideal for the cultivation of red varieties. Alto still has a very focused range of products, namely the well-known Alto Rouge, Alto Cabernet Sauvignon and more recently an award-winning Alto Shiraz.

### The vineyards (viticulturist: Eben Archer)

All four varieties were handpicked from trellised vineyards, growing in Hutton and Glenrosa soils. The vineyards, all north or north-west facing, are situated against the slopes of the Helderberg Mountain at 160m to 500m above sea level and benefit from the cooling effect of the afternoon maritime breezes during the ripening season.

At the time of picking the vines were between 7 to 22 years old with a yield of between 3 to 5 tons per hectare.

**about the harvest**: The four varieties, which ripen at different times, were harvested at between 23° and 27° Balling.

**in the cellar** : After harvesting the grapes were fermented on the skins over seven days at 25° to 27° C in closed stainless steel tanks. The fermenting mash was pumped over several times a day. After malolactic fermentation, the component wines were aged for 18 months in a combination of first, second and third-fill barriques, mostly of French oak.
