**ageing :** Best enjoyed young.

**in the vineyard :** Slow ripening conditions resulted in a later than usual start to the 2008 harvest. The cool and wet conditions during the 2007 winter period resulted in small berries with concentrated flavours. Slow ripening ensured slow sugar and phenolic development creating high expectations of the 2008 harvest.

### ABOUT THE AREA

South Africa's vineyards are mostly situated in the Western Cape near the coast. This is the southernmost region of the African continent, and has a Mediterranean type climate and diverse soils perfectly suited to quality grape production.

**about the harvest:** Harvesting took place from the end of January till February.

**in the cellar :** Specially chosen grapes were crushed and fermented until an off-dry wine was achieved. The wine was then bottled.
