about the harvest: Traditional grape varieties (Pinot Noir & Chardonnay) are hand picked in the cool of the night and the early mornings at the beginning of the harvest season.

in the cellar : Only the free run juice is used for this MCC product â€“ Â± the first 500 litres per ton. Krone Borealis is bottle fermented and then matures on the lees in underground cellars after which, prior to dÃ©gorging, the bottles are packed in wooden pupitres (turning racks) and the rÃ©muage (turning of the bottles) is done entirely by hand. Krone Borealis is microbiologically stable, the true celebration of the vintnerâ€™s art. It has recently â€˜grown up & come outâ€™ in sophisticated, elegant new packaging.
