in the vineyard : Made from grapes sourced from the TOKARA vineyards in Stellenbosch, Elgin and the Hemel-en-Aarde Valley as well as bought in grapes from Stellenbosch and Somerset West.

about the harvest: The vineyards cropped between 6 and 10 tons/ha and the grapes were harvested at various degrees of ripeness from 21Â° to 23Â° Balling depending on the acid, pH and flavour.

in the cellar : A small portion underwent barrel fermentation and 4% Semillon is blended in. Free-run and press juices were separated and settled overnight before being racked, filtered and fermented at 15Â° Celsius in stainless steel tanks with select wine yeast. After fermentation the wine was sulphured and left on the lees for five months before stabilisation and bottling. 90 000 bottles were produced.
