**about the harvest**: Harvesting was done by hand in picking baskets which get tipped in bins for transport to the cellar.

**in the cellar** : Receiving of grapes during the day. Crushing and de-stemming takes place after which the mash is pumped through the mash cooler directly to the press. Press juice underwent 20 hours cold settling after which half of the juice was racked to oak barrels and the other half to stainless steel where fermentation commence. During the period of ripening we harvested the Chenin Blanc block 9 times. The juice that gets racked to the barrel will be allowed to ferment spontaneously.

**Press** Bucher Pneumatic press.

**Maturation** 7 Months in French oak barrels.
