type : White **body :** Light **taste :** Fruity **wooded**

pack : Bottle **closure :** Cork

ageing : Cellaring Potential: Ready to enjoy now or within one year from vintage.

in the vineyard : About The Area

South Africa's vineyards are mostly situated in the Western Cape near the coast. This is the southernmost region of the African continent, and has a Mediterranean type climate and diverse soils perfectly suited to quality grape production.

Vintage Conditions

Cool temperate conditions during the growing season resulted in small, concentrated berries. Veraison was even, therefore ensuring even ripening of grapes. The period was characterised by low disease incidence. During harvest, the cooler than average summer temperatures resulted in an excellent balance between sugar and acid. Lower yields deliver a well balanced wine that offers intense fruit flavours.

about the harvest: Harvest Date: February 2009

in the cellar : Maturation: None

Total Production: 14 000litres
