ageing : Ready to drink now or in the next 7 years.

about the harvest: All grapes were hand picked and sorted before a pure yeast culture was inoculated.

in the cellar : The juice was pumped over the skins 3-5 times per day for 5 days. Once fermentation was complete, the wine was drained of the primary lees and transferred to a resting tank. Malolactic fermentation and a brief settling period preceded the wine to a combination of 225 liter barrels of French oak types. The wine spent between 12-14 months in barrel before bottling and labeling.
