type : White **style :** Sweet **body :** Light **taste :** Fruity
pack : Bottle **closure :** Screwcap

in the vineyard : Although the region exhibits a variety of microclimates, all of the growing areas within the appellation have cool night time temperatures that help to keep grape acids intact. The combination of soil diversity and variety of microclimates enables the fruit to mature slowly for ideal aroma and flavour complexities in our wines. Each one of our vineyards offer distinctive flavours to the wine and every growing season is unique. Yet, the consistency and quality of the grapes are discernible in every vintage with a spellbinding spectrum of layered flavours.

about the harvest: Early morning harvest.

in the cellar : A blend of chosen cooler vineyards from the Western Cape. Cool fermentation with imported yeast. Wine is bottled soon after fermentation to retain its freshness.
