**about the harvest**: The Shiraz for this wine was harvested at an average of 24° B.

**in the cellar** : Under the watchful eye and explicit instructions of our oenologist, the grapes were fermented on the skins for seven days at 28° C until dry. After pressing, the young wine was treated with American oak staves and malolactic fermentation was completed. The wine was left on the staves for a further 3 months for integration. Final blending and bottling took place at our cellars in Wellington.
