The grapes were sourced from trellised, dryland vineyards in the Devon Valley, Stellenbosch Kloof and Jonkershoek areas. Mostly south-west facing, they derive the maximum benefit from cooling maritime breezes to ensure slow ripening and concentrated fruit flavours.

about the harvest: The grapes were harvested by hand in March at between 24° and 25° Balling when fruit and tannins were fully ripened but the berries and skins were still firm.

in the cellar : Winemaker: Bonny van Niekerk

Each vineyard block was individually vinified and the juice fermented for 10 to 12 days at 27°C. After malolactic fermentation the wine was matured in a combination of wood (55% in 300 liter barrels, French and American - 80%/20%) and stainless steel (45%) for 12 months.
