in the vineyard : Heritage

Frans Malan, the founder of Simonsig, was the first producer of Méthode Champenoise in South Africa when he pioneered Cap Classique in 1971. Kaapse Vonkel became the first Cap Classique to use all three of the classic grape varieties used in Champagne when Pinot Meunier was introduced in 1997. It is, like Pinot Noir, a red grape variety with delicious aromatic fruit flavours and blossoms early in the evolution of the wine.

Vintage Description

The 2009 vintage brought memories of the classic 1996 surf movie, The Endless Summer, as it was a year with near perfect weather and there was no end to the balmy sun drenched days deep into April. Winemakers were excited about the exceptional quality of the vintage from the beginning of the 2009 harvest. Harvest started on the 20 January with Pinot Noir for the Cap Classique. The harvest was similar to last year for all Cap Classique grapes. Pinot Noir showed more even ripening with evenly coloured bunches compared to last year. Ripening was quite slow and sugars rose very gradually. The Pinotage was picked on the 16 & 17 February at slightly higher sugar levels than the Pinot Noir, this allow the delicious strawberry and raspberry aromas to develop. The young wines are characteristically ebulliently flavoured and should blend perfectly with its Pinot Noir and meunier cousins.

in the cellar : Style of Wine

A full flavoured dry sparkling Rosé made by the traditional Methodé Cap Classique by a second fermentation in this bottle. Careful blending by our experienced winemaker creates a succulent Rosé with fragrant berry fruitiness, finesse and silky smoothness on the palate.
