in the vineyard : Soil: Grown on selected patches of deep, red soils with good moist retention possibilities to ripen the grapes without any moist stress on the vines. Climate: The Swartland falls within the coastal winter rainfall area. Warm, dry summers, moderated by cool Atlantic breezes. Annual rainfall: 400mm average.

about the harvest: Low yield of between 7 and 8 ton/ha from unirrigated bush vine. Hand harvested at optimum ripeness as determined by tasting and by the sugar/acid ratio of the grapes.
