

Durbanville Hills Rhinofields Merlot 2009

Colour: Ruby red

Bouquet: Bursting with dark fruit prunes, cinnamon and Christmas fruit cake.

Taste: Medium to full-bodied, silky tannins and sweet red cherry with a slight mintiness on the palate.

An ideal partner to fresh grilled tuna, moussaka, oxtail, Christmas turkey and mature Cheddar.

variety : Merlot | 100% Merlot

winery : Durbanville Hills Cellar

winemaker : Martin Moore & Wilhelm Coetzee

wine of origin : Coastal

analysis : alc : 14.16 % vol rs : 1.9 g/l pH : 3.61 ta : 6.4 g/l

type : Red **body :** Medium **taste :** Fruity **wooded**

pack : Bottle **closure :** Cork

China Wine Awards 2012 - Double Gold

Veritas Wine Awards 2012 - Bronze Medal

Decanter World Wine Awards 2012 - Commended

South African National Wine Show 2011 - Silver Medal

in the vineyard : Background

Nine leading vineyard owners in the Durbanville district joined forces with Distell to create Durbanville Hills with the aim of promoting the regional individuality of this prime winegrowing area. The striking Durbanville Hills cellar sits on the side of a series of rolling hills with magnificent views of Table Mountain and Table Bay - the very geography that lies at the heart of what makes the wines so unique.

The Durbanville ward is officially considered one of the Cape's two coolest wine regions, thanks to the sea breezes that drift inland from False Bay and Table Bay and the late afternoon mists that bathe the slopes. These conditions are ideal for the slow ripening of the grapes, allowing them to develop their full-flavoured, intense character. Grapes are sourced only from the shareholder- growers, all of whom farm within the limited appellation of Durbanville. Meticulous crop control limits yields and promotes concentration of varietal flavour. Cellarmaster Martin Moore uses highly advanced cellar technology to ensure optimal extraction of colour and flavour.

Sustainable practices include maintaining the disciplines imposed by International Environmental Standard ISO 140001 such as in the treatment of waste water back to irrigation quality. In all its vineyards the growing practices prescribed by IPW (Integrated Production of Wine) are followed. These are designed to sustain natural resources. In addition, the members protect on their farms 210 ha of endangered Renosterveld as part of the Biodiversity Wine Initiative (BWI).

The Rhinofields range carries very limited release wines and the name refers to the indigenous Cape fynbos growing close to the Durbanville Hills cellar and which is being conserved.

The vineyards (vineyard consultant: Drikus Heyns)

The unique character of this wine lies in the influence of the different vineyards from which the grapes were sourced. The grapes were selected from two distinctly different vineyards - one on a sunny, north-facing hill, chosen for the prominent varietal aromas of the grapes, and the other on the valley floor where mulberry flavours dominates.

about the harvest: Hand harvested during March between 25° - 26° Balling

in the cellar : The grapes from these two vineyards were vinified separately. After 24

hours of cold soaking, the must was fermented on the skins (between 26° C and 28° C) in closed, specially designed auto fermenters (until dry). During this period the maximum fruit, colour and tannin extraction from the skins was made possible through very soft, continuous timer-regulated pump-over cycles. To soften the texture, the wine was left on the skins for one week after the fermentation period. Controlled malolactic fermentation took place in tank after which the wine was matured for 18 months in small oak using new French oak barrels.
