Planted between 1987 and 1991 the west facing vineyards grow at 224m above sea level on decomposed granite and Table Mountain sandstone soils. The vines are grafted onto nematode-resistant Richter 99 and 110 rootstocks and trellised on a five-wire vertical fence system.

about the harvest: The grapes were harvested by hand at 25° Balling in March.

in the cellar : After destalking and crushing, the mash was fermented using a chosen, pure yeast culture. After malolactic fermentation the wine was matured for 16 months in 90% French oak and 10% American oak, 45% of which was in new barrels and 55% second and third- fill.
