Tradition and talent blend with passion, precision and patience at Nederburg, where classically structured wines are made with vibrant fruit flavours. Nederburg's hallmark combination of fruit and finesse continues to be rewarded around the world. The Paarl winery has earned five-star ratings for three wines in the 2012 edition of Platter's South African Wine Guide. Three five-star ratings is the highest number achieved by any producer in the new edition of the guide and Nederburg shares this distinction with two other wineries. In 2011, Nederburg was chosen as Platter's Winery of the Year, with an unprecedented five wines across the multi-tiered range earning five-star ratings. The winery brought home six gold and six best-in-class ratings from the 2011 International Wine & Spirit Competition (IWSC) in London and won two double gold and nine gold medals at the 2011 Veritas Awards, South Africa's National Wine Show. Nederburg was also awarded three trophies at the 2012 Decanter World Wine Awards. These are just some of the many accolades earned by Nederburg where hand-crafted, micro-cuvées for specialist winelovers and beautifully balanced and accessible wines for everyday enjoyment are made with equal commitment.

Razvan Macici heads the team as Nederburg cellar master. He is supported by two winemakers who work closely under his direction. They are Wilhelm Pienaar, who produces the red wines and Wim Truter, who makes the whites.

The Winemaster's Reserve Collection

Nederburg's core super-premium wines are accommodated in The Winemaster's Reserve ensemble, named to honour the long-established tradition of winemaking excellence. These classic wines treasure the integrity of our grapes in every step of the wine-growing and winemaking journey. Every glass demonstrates an unwavering commitment to world-class vineyard and cellar skills.

This wine is made entirely from Cabernet sauvignon grapes.

Vineyards (viticulturist: Drikus Heyns)

The grapes were sourced from vineyards in and around the Western Cape. Planted between 1990 and 1998, the vines are grown in decomposed granite on a southerly slope, situated some 50m to 150m above sea level. The vines, grafted onto nematode-resistant rootstock Richter 99 and 110, are grown under dryland conditions while some of the vines received supplementary irrigation from either a micro-irrigation, drip or overhead sprinkler system.

about the harvest: The grapes were harvested by hand and machine at 23° - 25°
Balling from mid-February until the end of March.

in the cellar : The fruit was crushed and fermented on the skins in temperature-
controlled stainless steel tanks at 25° C - 28° C for two weeks. Upon completion of
malolactic fermentation the wine was matured in wood for a period of approximately
12 months.
