2013 John Platter Wine Guide - 5 stars

ageing : This wine will benefit from bottle maturation for 6 - 8 years.

in the vineyard : The vineyards were drip-irrigated to prevent the vines from becoming stressed. Fruit quality was optimized through crop reduction and selective handpicking at optimum ripeness from a 19-year-old double-row of bush vines.

about the harvest: Grapes were hand-picked and de-stemmed

in the cellar : After the handpicked grapes had been de-stemmed and crushed, the juice was fermented in upright stainless steel tanks with the aid of selected yeast strains, with the temperature controlled at 25-28°C. The wine was pumped-over thrice a day until fermented dry, and then matured for fifteen months in a combination of French and American oak 225 litre barriques (all new). This wine is a fine blend from only the top eleven best of these.
