

Green Shebeen Organic Cabernet Sauvignon 2010

Say heita to the soul of the party, the wine that puts the "chill" back into "chillax". Green Shebeen Cabernet Sauvignon is grown on a south-facing slope where cool south-westerly breezes take the sting out of the hottest day - making this an easy-going, organic wine that speaks to all your senses with its bold, dark colour and fruity flavours. It's about as good as life gets!
