**in the vineyard** : The recent demarcation of the Darling district has led to a focus at Darling Cellars on wines which are terroir and varietal specific. The cool and temperate West Coast climate lends itself to a different micro- and mesoclimate which, along with the different types of soil, lead to unique grapes, which we guide into even more unique wines. Having 99% of all vineyards dry land and almost the same percentage as bush vine, this is as close to what nature intended for grapes to be as one can get.

**Terroir**: Decomposed granite in the area surrounding Darling Hills. Hot summers moderated by the cool Atlantic.

**Vineyard type**: Bush Vine, no irrigation.

**about the harvest**: Yield: 5 t/ha

Balling at Harvest: 17° B

**in the cellar** : Vinification: Crush and destalk, 14 days fermentation at 12°C

Maturation: No maturation
