type : White **style :** Semi Sweet **taste :** Fruity

pack : Bottle **size :** 0 **closure :** Screwcap

in the vineyard :

Tradition and talent blend with passion, precision and patience at Nederburg, where classically structured wines are made with vibrant fruit flavours. Nederburg's hallmark combination of fruit and finesse continues to be rewarded around the world. The Paarl winery has earned five-star ratings for three wines in the 2012 edition of Platter's South African Wine Guide. Three five-star ratings is the highest number achieved by any producer in the new edition of the guide and Nederburg shares this distinction with two other wineries. In 2011, Nederburg was chosen as Platter's Winery of the Year, with an unprecedented five wines across the multi-tiered range earning five-star ratings. The winery brought home six gold and six best-in-class ratings from the 2011 International Wine & Spirit Competition (IWSC) in London and won two double gold and nine gold medals at the 2011 Veritas Awards, South Africa's National Wine Show. Nederburg was also awarded three trophies at the 2012 Decanter World Wine Awards. These are just some of the many accolades earned by Nederburg where hand-crafted, micro-cuvées for specialist winelovers and beautifully balanced and accessible wines for everyday enjoyment are made with equal commitment.

Razvan Macici heads the team as Nederburg cellarmaster. He is supported by two winemakers who work closely under his direction. They are Wilhelm Pienaar, who produces the red wines and Wim Truter, who makes the whites.

This wine is made entirely from Chenin Blanc grapes.

Foundation Collection

Our starting point is that fine wines are born in the vineyards. Superior vines, well sited and nurtured to coax the best from them, create the foundation for wines of distinction. Made for everyday enjoyment, they deliver a clear and accessible pleasure of fruit and flavour, backed by more than two centuries of skill, tradition and heritage.

Vineyards

The grapes were sourced from trellised and bush vines from the Paarl, Robertson and Worcester areas. The vines, planted between 1980 and 1995, grow in sandy, decomposed granite and alluvial soils, situated at altitudes of 50m to 100m above sea level. Grafted onto nematode-resistant rootstocks Richter 99 and 101-14, some received supplementary irrigation from a micro-irrigation system while others grow under dryland conditions.

about the harvest: The grapes were harvested by hand at 21° to 22.5° Balling during February.

in the cellar : The fruit was crushed and gently pressed to extract excellent quality juice. Fermentation took place in stainless steel tanks for two weeks at 15° C.
