

Durbanville Hills Chardonnay 2012

Colour: Pale yellow

Bouquet: Aromas of white peaches, orange zest and hints of apricots on the nose.

Taste: A creamy richness on the palate with subtle wood flavours. Aromas on the nose carry through to the palate, ending with a crisp finish.

Enjoy this wine with mild Indian korma, Cape salmon, Caesar salad, snails in garlic butter, brie and old Amsterdam cheeses and traditional South African chicken pie.

variety : Chardonnay | 100% Chardonnay

winery : Durbanville Hills Wine

winemaker : Martin Moore and Gunther Kellerman

wine of origin : Durbanville

analysis : alc : 14.34 % vol rs : 1.8 g/l pH : 3.49 ta : 5.1 g/l

type : White **style** : Dry **body** : Soft **wooded**

in the vineyard : Nine leading vineyard owners in the Durbanville district joined forces with Distell to create Durbanville Hills with the aim of promoting the regional individuality of this prime wine-growing area. The striking Durbanville Hills cellar sits proudly atop a series of rolling hills with magnificent views of Table Mountain and Table Bay - the very geography that lies at the heart of what makes the wines so unique. The Durbanville ward is officially considered one of the Cape's two coolest wine regions, thanks to the sea breezes that drift inland from False Bay and Table Bay and the late afternoon mists that bathe the slopes. These conditions are ideal for the slow ripening of the grapes, allowing them to develop their full flavoured and intense character. Grapes are sourced only from the shareholder growers, all of whom farm within the limited appellation of Durbanville. Meticulous crop control applied to these vineyards further limits yields and promotes concentration of varietal flavour, encouraging a process of natural selection. Cellarmaster Martin Moore uses highly advanced cellar technology to ensure optimal extraction of colour and flavour.

Sustainable practices includes the maintaining of the International Environmental Standard ISO 140001, treating of waste water back to irrigation quality and all vineyards subscribing to IPW (Integrated Production of Wine) growing practices, designed to sustain natural resources. In addition the farmers protect 220ha of endangered Renosterveld as part of the Biodiversity Wine Initiative (BWI).

The vineyards (vineyard consultant: Drikus Heyns)

The grapes for this wine came from vineyards mostly located in the lower Durbanville foothills on the southern slopes, some 250 metres above sea level and grown in dark red soils.

about the harvest: The vineyards, yielding around 9 tons per hectare, were harvested from the mid to late February between 24° - 26° Balling, when the grapes were showing ripe, yellow colours.

in the cellar : The grapes from each vineyard were individually vinified. The major portion was fermented in steel tanks at temperatures between 12° C - 15° C and left on the lees for 6 months. Only about 25% of the wine was matured in new French Oak

for about six months before blending and bottling.
