about the harvest: Fruit from Constantia and Stellenbosch.

Yield: 5 - 6 t/ha

in the cellar : Fruit sourced from Constantia and Stellenbosch. Each variety was fermented separately, on the skins, for about 14 days. Pump overs were done three times a day to extract colour and tannin. After fermentation the wines were racked into small French oak barrels - a combination of second and third fill - malolactic fermentation in barrel and aged for 14 months. A light egg white fining was done before bottling in October 2012.
