in the vineyard : The recent demarcation of the Darling district has led to a focus at Darling Cellars on wines which are terroir and varietal specific. The cool and temperate West Coast climate lends itself to a different micro- and mesoclimate which, along with the different types of soil, lead to unique grapes, which we guide into even more unique wines. Having 99% of all vineyards dry land and almost the same percentage as bush vine, this is as close to what nature intended for grapes to be as one can get.

Darling Cellars Reserve is a wine range of straight varietals where the focus is on fruit driven, varietal true, value for money wines.

Terroir: Deep, decomposed granite soils on the slopes of the Darling Hills, with a cooling effect in the warm afternoons from the Atlantic Ocean in close proximity.

Vineyard type: Bush Vine, dry land.
