Merlot was initially planted as a blending partner for Cabernet Sauvignon. The softer style was designed to round off the Cabernet Sauvignon. When the market indicated a liking for softer red wine, Merlot was included in our range as a stand alone variety.

about the harvest: In 2012, good, healthy fruit was picked at optimum ripeness – determined by aroma assessment (i.e. maximum fruit intensity).

in the cellar : The wine was fermented in rototanks between 20 ˚C and 25 ˚C with 30 % whole berries. Of the total 40 % was pre-soaked for 2 days and 25 % was macerated post fermentation.
