Platter Wine Guide 2015 - 3½ Stars

about the harvest: All grapes were hand picked

in the cellar : After harvesting, all grapes were sorted before being crushed directly in to the press where skin contact was allowed for 8 hours. Pure yeast cultures were inoculated in the juice after pressing in order to optimize the fermentation process at around 16° C. Extended lees contact was allowed after fermentation and the wine was allowed to naturally clarify under gravity prior to filtering and bottling.
