in the vineyard : Pinotage vineyards from Stellenbosch and Paarl. Vineyards produce around 6 - 9 tons per hectare.

The Bat Eared Fox
Aptly named the bat eared fox (*Otocyon megalotis*) these fascinating little creatures have large ears which can pinpoint sounds underground with 100% accuracy. Active during the day and night, they feed mainly on termites and live in old ant bear dens in the ground. We are actively trying to protect this unique species, indigenous to our Robertson estate, as they are often identified by farmers as jackals and killed - a practice we're striving to eradicate.

about the harvest: Handpicked at optimum ripeness.

in the cellar : Fermented in open and closed fermenters with regular punch downs and pump overs to ensure upfront fruit and soft extraction. Matured in 3rd and 4th fill barrels for 10 months with a portion of the blend left unoaked.
