**in the vineyard** : The grapes were selected from premium vineyards in the Stellenbosch region. The vines were grown in a cool Mediterranean climate and loamy clay soils.

Viticulturist: Francois de Villiers

**about the harvest**: The grapes are harvested at 24° Balling in beginning to mid-February.

**in the cellar** : Fermentation took place on its skins for approximately five days at 25° - 28° Celsius within static red fermenters. Skins were pressed off prior to dryness to retain its soft ripe tannins and avoid any unnecessary varietal tannins. Malolactic fermentation and maturation took place in stainless steel tanks with 2g/l of selected medium toast French oak staves for approximately eight months.
