

Pierre Jourdan Belle Rose NV

The discreet blush of Belle Rose, achieved by carbonic maceration (internal berry fermentation), is emphasized in the name the 'beautiful rose'. This process extracts the elegant colour and the flavours of the Pinot Noir grape, but not the harsh tannins - maintaining a distinguished dry elegance.

The palate reveals a lively presentation of rich strawberry and cherry flavours derived from Pinot Noir - with an elegant dry finish.

Mussels, crayfish, prawns, as well as duck. The richness of the Pinot Noir grape lends itself ideally to complement these dishes. Belle Rose also adds romance to an intimate tête à tête.

2022 Rosé Rocks - Gold

in the cellar : Our Belle Rose derives its name "beautiful rose" from the elegant blush colour, achieved by carbonic maceration of the base wine. This extracts the elegant colour and the flavours of the Pinot Noir, but not the harsh tannins. The base wine then undergoes the traditional second fermentation inside the bottle which yields the beautiful lively bubbles in the glass.
