

Jordan Mellifera Natural Sweet 2014

Delicate and floral with a ripe apricot and spring blossom bouquet and the well-balanced acidity adds elegance to the long, rich finish.

The perfect ending to a meal - pair with crème brûlée or a cheese selection.

2012 - 4½ stars in the 2014 Platter's South African Wine Guide

2011 - 4½ stars in the 2013 Platter's South African Wine Guide

2010 - 4 stars in the 2013 Platter's South African Wine Guide

Named after the Cape Honey Bee, *Apis Mellifera Capensis*, and inspired by the owners's son's unfortunate experience with them during the sweet wine's first press cycle.

in the vineyard : LOCATION & CLIMATE: The distinct ravine which embodies Stellenbosch Kloof harnesses all the qualities of a well-orientated compass. Varying elevations and aspects allows us to grow a selection of classic varieties to specific sites that optimise this expression through their location. The cooler south- and east-facing aspects, unique in Stellenbosch, hosts the more sensitive and aromatic white-skinned grape varieties.

Stellenbosch Kloof enjoys a cooler Mediterranean climate with mari-time influences from False Bay, 14km to the south, and a refreshing breeze channelled from the West Coast's Benguela current 24km to the north-west. These two breezes culminate at the top end of the ravine and bring in early morning mists, especially from False Bay. Consequently, temperatures in our meso-climate can be measured at least 3° Celsius cooler than inland Stellenbosch during ripening peri-ods. This adds a unique characteristic to Jordan wines.

APPELLATION: Wine of Origin Stellenbosch.

SOIL: Glenrosa

ASPECT: South-facing, 280m above sea level

AGE OF VINES: 27 years old

CLONES: Geisenheim clone 239 & Richter 110.

about the harvest: Hand-selected and harvested on 10 April 2014 at 27°B.

in the cellar : The utmost patience was needed to make this wine, taking the whole day to press the raisined berries. The juice was racked into a stainless steel tank and fermented between 13 and 15°C using a specially selected strain of yeast capable of handling higher sugars.
