Cultivar(s) Pinotage 100%

The single block of Pinotage used in the wine is planted to Vilafonte soils, ensuring even fruit production and consistency of quality. The vineyards are grown at an altitude of 100m in east-facing rows, attracting sun exposure on the bunches in the morning.

**about the harvest**: The grapes are harvested in the coolness of early morning, at about 22.5° B.

The average yield is 12 tons per hectare.

**in the cellar** : Pump overs take place on the skins for 4 - 5 hours to extract some colour from the skins, resulting in an amber sunset hue. The juice is removed from the skins, and fermented at lower temperatures averaging at 13°C. The juice is taken off the lees immediately to optimise the freshness of the fruit.
