### in the vineyard :

The recent demarcation of the Darling district has led to a focus at Darling Cellars on wines which are terroir and varietal specific. The cool and temperate West Coast climate lends itself to a different micro- and mesoclimate which, along with the different types of soil, lead to unique grapes, which we guide into even more unique wines. Having 99% of all vineyards dry land and almost the same percentage as bush vine, this is as close to what nature intended for grapes to be as one can get.

**Terroir:** Decomposed granite and Hutton in the area surrounding Darling Hills. Hot summers moderated by the cool Atlantic

**Vineyard type:** Bush Vine, no irrigation

**about the harvest:** Yield: 6 - 8 t/ha

Balling at Harvest: 24° B

**in the cellar :** Vinification: Crush and destalk, 10 days fermentation at 20-30° C

Maturation: Maturing in stainless steel tanks with French oak staves for complexity
