

## Simonsig Chenin Blanc 2016

The wine displays a light straw colour. The 2016 Chenin blanc screams tropical fruit in a glass. An array of white pear and melon with an undertone of quava. The synergy between the acid and the fruit makes this wine a super quaffer. An unpretentious wine that over delivers on the nose and palate, stating itself as an any occasion companion.

Beetroot and Citrus salad with goat's cheese. Steamed mussels with a garlic cream sauce. Whole chicken on the fire with root vegetables and if all else fails just on its own for pure enjoyment.

**variety :** Chenin Blanc | 100% Chenin Blanc

**winery :** Simonsig Family Vineyards

**winemaker :** Johan Malan

**wine of origin :** Stellenbosch

**analysis :** alc : 13.7 % vol   rs : 4.2 g/l   pH : 3.3   ta : 6.2 g/l

### ageing :

Early drinking style, at its best within two years from vintage date.

Simonsig Chenin Blanc was the first wine released by founder Frans Malan in 1968. This versatile varietal appeals with fresh fruit flavours and is reaching new levels of

popularity worldwide.

**in the vineyard :**

It was a challenging, early and very dry harvest. Water supplies had a great impact on the 2016 harvest, especially where vineyards were not buffered against the heat. However, the dry conditions led to the vineyards and grapes being very healthy overall. Most other regions especially the Swartland produced significant smaller crops, but at Simonsig Estate we produced 2% more than 2015. The Chenin blanc grapes were in a pristine condition. It was quite a challenge picking the various blocks on time, before the sugar levels sky rocketed. We were able to produce beautiful building blocks with an abundance of fruit and depth. I will just say "Watch this space"

**about the harvest:**

Grapes are handpicked.

**in the cellar :**

The grapes are crushed and some lots are given overnight skin contact. Juice is cold settled to brilliant clarity and inoculated with selected yeast strains well known for producing very fruity wines. Fermentation temperature is kept between 12-14°C to ensure a nice slow fermentation and optimal fruit flavour production.
