The Vineyards are called De Slange Rivier (Serpent river) and was founded by French Huguenot Louis Fourie in 1699, land granted by Cape Governor Adrian Van Der Stel. 84 Hectares under vine nestling on the high slopes of the Groenberg Mountain, Wellington District with sweeping views across to Table Mountain.

in the vineyard : Cool breeze micro-climate, one of the highest vineyards in South Africa with temperatures 6°C cooler than the valley giving our grapes slow ripening. Our vines thrive on the decomposed high mineral granite Oakleaf with sub -dominant Grenrosa and Tukulu soil formations on the mountain. The blocks are carefully manipulated for high concentrated flavour with low yields. Controlled irrigation and 7 strand hedge system with moveable foliage wires. The high trellis system ensures perfect vertical shoot positioning and bunch management is done to ensure even ripe grapes. Hand harvest in February at dawn to keep grapes cool for vinification.
