

DMZ Chardonnay 2017

This wine shows sweet vanilla and hints of almonds on the nose with a clean tropical fruit finish. Delicate oak flavours support a rich and full fruit flavour in the mouth with layers of white peach, apricot, grapefruit and vanilla.

variety : Chardonnay | 100% Chardonnay

winery : De Morgenzon

winemaker : Carl van der Merwe

wine of origin : Stellenbosch

analysis : alc : 13.8 % vol rs : 2.6 g/l pH : 3.4 ta : 5.7 g/l

in the vineyard : The fruit for DMZ Chardonnay is selected from premium trellised vineyards in the Western Cape at elevations of 100 to 200 meters above sea level, most with the cooling effects of the close proximity to the ocean. Components from weathered granite and sandstone soils in Stellenbosch and Elgin all contribute to the elegance and minerality, as well as a fresh citrus and yellow apple character.

about the harvest: 2017 was another hot and dry vintage in the Cape. Although the day time temperatures were warm, evening temperatures were much cooler than normal resulting in wines with incredible weight and texture, yet with great acidity and length. The dryness of the season resulted in minimal disease pressure with fruit arriving at the winery in very good condition.

in the cellar : Each vineyard parcel was fermented separately, using a combination of natural yeast and careful inoculation. Of the grapes, 25% were left as whole bunch and 75% were lightly crushed and the juice was allowed to settle overnight. The wine was aged on its lees in a combination of stainless steel and French oak barrels. Malolactic fermentation was allowed to commence naturally in the barrel fermented portions. After 8 months, the various parcels were blended, then aged for a further 3 months before being stabilized, lightly filtered and bottled.
