**ageing :** Well-structured, this wine will reward careful cellaring for many years to come.

The Guild, an association of some of South Africa's finest winemakers, has evolved into a body of 45 members who jointly represent the pinnacle of South African wine achievement. This year, the members of the Guild celebrate their 30th Auction – a showcase of rare and unique wines produced by some of South Africa's leading winemakers.

**in the vineyard :** Location & Climate:

The distinct ravine which embodies Stellenbosch Kloof harnesses all the qualities of a well-orientated compass. Varying elevations and aspects allows us to grow a selection of classic varieties to specific sites that optimise this expression through their location. The cooler south- and east-facing aspects, unique in Stellenbosch, hosts the more sensitive and aromatic white-skinned grape varieties.

Stellenbosch Kloof enjoys a cooler Mediterranean climate with maritime influences from False Bay, 14km to the south, and a refreshing breeze channelled from the West Coast's Benguela current 24km to the north-west. These two breezes culminate at the top end of the ravine and bring in early morning mists, especially from False Bay. Consequently, temperatures in our meso-climate can be measured at least 3° Celsius cooler than inland Stellenbosch during ripening peri-ods. This adds a unique characteristic to Jordan wines.

Appellation: Wine of Origin Stellenbosch.

Soil: Decomposed granite (Hutton and Glenrosa soil form).

Aspect: The Cabernet Sauvignon, Cabernet Franc and Merlot grapes were harvested from the hillside vineyards at Jordan with views overlooking Table Mountain and False Bay.

Age of vines: 24 years old.

**in the cellar :** A blend of the best "Cobblers Hill" barrels and a reserve Cab-ernet Sauvignon, this wine has been named "Sophia" after the legendary mother of Faith, Hope and Charity. Representing the characteristics of the three Bordeaux varieties that makes up this exceptional wine. Fermented at 28°C with three pump-overs daily over the fermenting cap. After pressing, the wine was racked to barrel where it

completed malolactic fermentation. The wine spent a total of 26 months in 225-litre French oak barrels to integrate the rich tannins and add complexity.
