We pay homage to the elusive Hedgehog. A lesser known creature that inhabits the vineyards and valley of the Orange River. It is in the shadow of the moon where these shy but hardworking creatures forage the vineyards, at a time when the air is cool and the vines do their work of producing the best quality fruit for picking. Our grapes are often picked at night or the early hours of the morning for optimal ripeness, to produce these beautifully fruit driven, everyday drinking wines. Enjoy.
