pack : Bottle **size :** 750ml **closure :** Screwcap

ageing : Will reward the patient drinker over the next 5 years.

in the cellar :

All the vineyard parcels were harvested and vinified separately. All the grapes were given 12 to 24 hours extended skin contact before only the free-run juice was transferred to tank for fermentation. The wines were fermented at low temperatures with selected yeast strains to highlight each vineyard's specific characteristics. After fermentation the wine was left for a further four months in contact with the lees before putting the final blend together.
