The Mont Rochelle Sauvignon Blanc is made solely from 23-year-old vineyards situated at Mont Rochelle. A small percentage of Semillon was blended into the wine, with part of the wine being fermented in neutral oak barrels for increased complexity and texture. Freshness and layered fruit complexity are the hallmarks of our Sauvignon blanc.

**in the vineyard** : The post-harvest period (April and May) was very hot and dry, which led to early leaf-fall in some, and the accumulation of reserves was moderate. Winter arrived late, but was cold enough to break dormancy. Although rainfall was higher than the previous season, it was still below average and the dam and soil water levels remained under pressure. We therefore had to irrigate meticulously. Spring arrived on time and warm weather in August contributed to somewhat earlier than normal, but even bud burst. However, cooler weather in September resulted in some instances of later and more uneven bud burst. October and November was characterised by cool nights and warm days, that was beneficial to flowering and berry set. The growing season and especially harvest time will be remembered for cooler nights and warmer, drier days. Harvest time kicked off on time. The generally dry season resulted in very healthy vineyards with limited occurrence of pests, diseases or rot.
