We are deeply committed to sustainability in all our farming practices, protecting our Rhino field, eradicating alien vegetation and recycling water.

about the harvest: Grapes are hand picked in the early hours of the harvesting day to retain the fresh character of the fruit

in the cellar : Grapes are destemmed, crushed and pressed before undergoing a controlled cold fermentation in stainless steel tanks. The wine is stabilised, filtered and then bottled into a lightweight 350gr bottle before being distributed locally in South Africa and assorted global markets
