Nestled in the Citrusdal Mountains, some 50 kilometers north of Swartland, is the magnificent Piekenierskloof plateau, which provides the perfect natural environment for vineyards to thrive. At 750 meters above sea level, the plateau's climate is characterized by hot (warm) days and cool nights, which allow grapes to slowly ripen and develop complex fruit flavours. Ungrafted bush vines planted in the 1950's are still used in the production of Piekenierskloof Wine Company's range of Fairtrade wines.

in the vineyard : Grapes are sourced from vineyards in the Piekenierskloof region. These vineyards are all bush vines and grow on sandy, loam soils. The vineyards are meticulously farmed and managed to yield below 5 tons per hectare.

about the harvest: Hand harvested in March at a balling of 26.

in the cellar : Fermented at controlled temperature for 8 days (24°C). 50% wood matured for 14 months in 225Lt French & American barrels, the other 50% of the wine was matured with a blend of 50% American and 50% French oak staves.
