

Zevenwacht Merlot 2016

Rich and generous with plush concentrated flavours of plums, chocolate and a combination of red and black cherries. Layers of red fruit, strawberries and hints of red cherries that cover the palate from start to finish. For those with a fondness for a softer yet full-bodied Merlot, then this is your investment wine - a wine that, with maturation, will reward you handsomely.

When to enjoy: Socialising with friends over a relaxed meal.

Our meal suggestions: Terrific with meaty fish such as Tuna or Salmon or with goat's cheese on a wild mushroom and spinach salad or a tasty pizza. Delicious with chocolate/berry desert!

variety : Merlot | 100% Merlot

pack : Bottle **size** : 750ml **closure** : Cork

ageing : Will reward you handsomely with some maturation between 3-6 years.

Zevenwacht Wine Estate, situated on the beautiful **Stellenbosch Wine Route** is a modern wine farm with a 300 year history. Owned and managed by the Johnson Family, the Estate has a strong commitment to historic and cultural preservation as well as conservation of the surrounding indigenous environment. Two prime farming locations provide the grapes for the Zevenwacht winery. The home vineyard on the Estate's panoramic 450 hectare maritime influenced property, supplies the majority of the grapes. The farm Zevenrivieren, situated at the crest of the Helshoogte Pass, provides winemakers, Hagen Viljoen and Charles Lourens, with a boutique selection of grapes that add to the fascinating variety of the wines.

in the vineyard : Two very different vineyards in Stellenbosch supplied the fruit for this wine. The first site, 350m above sea level on the south-west facing slopes of the Polkadraai Hills area, provides bright and juicy fruit with good acidity, tannic weight and absolute fruit density on the palate. The second vineyard on the lower South Western slopes of Polkadraai Hills, offers Ribena Ripeness, generosity and length on the palate. Although soil types differ between the sites, they all have some form of decomposed granite lying over structured clay subsoil allowing for ample drainage and water retention when required

in the cellar : The grapes were picked at optimal tannin and fruit ripeness with a sugar of 25-25.5 Brix. Berries were sorted with the sorting table during harvesting. At the cellar, we gave the berries a light crush and fermented in 10 ton fermenters with a temperature peak at 27°C. During the active part of fermentation, we gave the wine four pump overs. This action allows for a soft extraction of ripe skin tannin and colour. The wine aged in 2nd and 3rd fill 300L & 500L barrels for 16 months
