Smooth & juicy redolent red and black berries from the Cape's unique varietal

in the vineyard : Last year's crop was very small because of the drought. This year, after a good winter rain, one of the biggest challenges we have seen is the unevenness in the ripening of the berries. The whites wines are showing excellent ripeness and acidity. 'We'll have brilliant fruit, richness and mouthfeel complemented by the freshness.' Meanwhile, for the red wine like Merlot, there's an unprecedented tannin ripeness that is going to provide beautiful tannins structure and no harshness.

Wine of Origin Western Cape (Wellington, Swartland)

in the cellar : After fermentation on the skins and pressing, the young wine was allowed to complete malolactic fermentation on oak staves, then left for a further 3 months of wood maturation. Final blending and bottling takes place at our cellars in Wellington.
