wine of origin : Western Cape

analysis : alc : 13.5 % vol rs : 6.15 g/l pH : 3.38 ta : 5.13 g/l

type : Red **style :** Dry **body :** Medium **taste :** Fruity

pack : Bottle **size :** 750ml **closure :** Screwcap

ageing : 1-2 years

in the vineyard : The vineyards lie in deep red soils ensuring excellent water-retention and adding structure and fullness to the wines.

about the harvest: The 2018 harvest was challenging being one of the driest seasons in recent times. The night temperatures were low overall with exceptionally cold weather conditions. The vineyards generally showed good and balanced growth without being excessive or too vigorous. In most cases the water supply was sufficient while the ripening period was cooler and drier than usual. The grapes reached good acidity and lower pH levels and generally managed to accumulate sufficient sugar levels. The season was characterised by healthy, full-flavoured grapes.
