2019 Top 100 SA Wines - Double Platinum

ageing : Up to 20 years if cellared correctly.

in the vineyard : The Stellenbosch vineyards that were planted in 2003 (Cabernet Sauvignon Clone 46 and 163, Merlot Clone 192 and Cabernet Franc Clone 1) are some of the oldest vineyards on the estate and grow on the south-eastern slopes of our estate. The vineyards are trellised in the Vertical Shoot Position trellising system on decomposed "Koffieklip" ("Coffee Stone"). Only the first grapes are used. Specific leaf removal is applied to reduce green flavours and enhance fruit, colour and structure.

in the cellar : Each variety was handpicked and vinified separately. The grapes were sorted into the cellar and only destemmed and not crushed. It underwent long and slow cold soakings of between 10 and 15 days before spontaneous fermentation in small, stainless steel tanks with one to two punch down by hand each day. The wine was separately aged for 12 months in custom-made 300l French oak barrels. The wines were blended and oaked for another six months before being bottled and kept for another 12 months before release.
