in the vineyard :

Our Vineyard Collection Wines are made from specific vineyards, each with its unique character for its cultivar and terroir. For this reason, all wines in the range are of single cultivar.

The grapes are harvested from 32 year vineyards in the Perdeberg area. The soils are mainly decomposed granite and glenrosa.

about the harvest: The grapes are harvested in the early morning when it is still cool.

in the cellar :

After the grapes are de-stemmed, skin contact is given for 2hours and the juice are extracted. Only free run juice are used and great care is taken that the juice is clear before fermentation starts to ensure the pure, concentrated fruitiness grapes are infused into the wines.
