Jordan Mellifera Noble Late Harvest 2019 375ml

Delicate and floral with a ripe apricot and spring blossom bouquet and the well-balanced acidity adds elegance to the long, rich finish.

The perfect ending to a meal - pair with crème brûlée or a cheese selection.

2016 - 4½ stars in the 2018 Platter's South African Wine Guide
2014- 4½ stars in the 2017 Platter's South African Wine Guide
2013- 4½ stars in the 2015 Platter's South African Wine Guide

Named after the Cape Honey Bee, Apis Mellifera Capensis, and inspired by the owners's son's unfortunate experience with them during the sweet wine's first press cycle.

in the vineyard : The distinct ravine which embodies Stellenbosch Kloof harnesses all the qualities of a well-orientated compass. Varying elevations and aspects allows us to grow a selection of classic varieties to specific sites that optimise this expression through their location. The cooler south- and east- acing aspects, unique in Stellenbosch, hosts the more sensitive and aromatic white-skinned grape varieties.

Stellenbosch Kloof enjoys a cooler Mediterranean climate with maritime influences from False Bay, 14km to the south, and a refreshing breeze channelled from the West Coast's Benguela current 24km to the north-west. These two breezes culminate at the top end of the ravine and bring in early morning mists, especially from False Bay. Consequently, temperatures in our meso-climate can be measured at least 3° Celsius cooler than inland Stellenbosch during ripening periods. This adds a unique characteristic to Jordan wines.

Appellation: Wine of Origin Stellenbosch.
Soil: Glenrosa
Aspect: South-facing, 280m above sea level
Age of Vines: 32 years old
Clones: Geisenheim clone 239 & Richter 110.

about the harvest: Hand-selected and harvested on 29th of April 2019 at 34.3˚B.

in the cellar : The utmost patience was needed to make this wine, taking the whole day to press the raisined berries. The juice was racked into a stainless steel tank and fermented between 13 and 15°C using a specially selected strain of yeast capable of handling higher sugars.
